DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated, admitted "which are already known" in the Summary of the Invention See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 10 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kienberger et al. (U.S. Pat No. 5,949,756).

With regard to claim 10, Kienberger discloses an ATM communication network KN (a packet-oriented communication network), communication terminal apparatus KE

(a plurality of communication terminals) connected to KN via communication systems KS (a plurality of hubs), and an ATM communication system ATM-KS (a switching system and a switching matrix module), including internetworking units IWU (a broadband access unit) feeding into ATM-KS, a control unit ST (a central unit) feeding into IWU, bi-directional PCM and ATM inside IWU (a plurality of conversion units), where LB1-4 (Fig. 2 shows time-orientation) are connected IWU and are packed into cells according to ATM, col. 4, ln. 66; see also col. 4-col. 5, ln. 3. Fig. 1; see also Fig. 2.

Allowable Subject Matter

4. Claims 11-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
